AN EXAMPLE.

Given to Prove That a Chronic A Double Wall Map, 5 feet 8 inches by 8 feet 10 inches, mounted on rollers top and bottom, ready to hang. Case of Catarrh Cannot Be Cured at Sight or Even in A One Month.

Drs. Mansfield and De Monco Have Repeatedly Stated the Fact, That Chronic Diseases Required a Skillful, Mild and Soothing Treatment for a Term of Months in Order to Effect a Cure, and Today They Publish a Case That Proves Without a Doubt That Their Statements are True.

"Mrs. Delong states the facts of her case very plainly, and selts that anyone who doubts its truth, and the skill of Drs. Mansfield and De-Monco, to call on her and be convinced. In conversation with the reporter, she speaks as

follows:

"I just want you to publish my case as an example of your situling method of treating chronic diseases. I have beand remarks from persons doubting your abity in curing out onto it desases, that they believed that if you could core a case of catarth is a term of months, you ought to cure it in one. Right there is where these people are mississen as your treatment of my disease proves it beyond a doubt.

MRS. S. DELONG, NO HAST THE SOUTH

"I had suffered for fifteen years, my case had become chronic, and I thought if I got cured in a year it would be worth the trial. My head pained me constantly my eyes weak, nose stopped up all the time and I was so short of breath that I would have to sit up in bed sometimes until 3 o'clock in the morning before I could get to sleep.

'I full wretched and worn out all the time. My appetite began to fail me. I tried many different kinds of patent medicines but none of them rendered me any relief.

'It has been just six months since I began treatment with Drs. Mansfield & De Monco. I was then suffering so much that life was a burden. Today I am cured completely. That is what their treatment has done for me. I cannot praise the honest skillful and resnarkable treatment of Drs. Mansfield & De Monco enough. I recommend them to all who are suffering from any chronic disease, as I believe they can help you, but don't expect to get cured of a chronic disease in a week occess a month, but stick by these physicians and you will never regret it.

Only \$5 a Month for Catarrhal troubles; Medicine Free. A PROMINENT LADY

Of the W. C. T. U. Representing the

Seandinavian Peope in That Grand Work Plainly States Her Opinion of Drs, Mansfield and De Monco's Treatment. "Miss lyerson who resides at 153, 2nd East street, this city, and represents the Scalid-navian people in the Woman's Christian as-sociation, whose noted work has reached every

sociation, whose noted work has reacted every nock and corner of the world.

Miss lyerson is a lady who gains the confi-dence of those who converse with her, as she means just what she says in every instance, and the refined and lady like appearance at once places her a leader in the work she has maped out to fulfil. In speaking of Drs. Munsheld and De Monco's treatment to the re-porter, she said:

MISS IVERSON No. 155 Second East street.

Miss lyrason No. 15 Second East street.

"I have been troubled for five years with catarrit, which I believe was caused by inhaling alkili dust. All the asnoying symptoms segmed to be present in my case. At times my surjecting was aimost unbearable. If wheat pained me over my eyes and back part of my head. These pains were so severs at times that my head would become dizzy.

"My eyes grew weak! I was compelled to give up realing by lamp light for when I did so, if but for a few minutes, everything would become bilired and my head would begin to acho so that I had to give up trying to real at hight. My nose was continuity stopped up, the mines would collect in my throat and I had to hack and egits or much that my throat became irritated and sore, and a hoarsness would generally follow.

tated and sore, and a noaraness would generally follow began to feel weak and tired which caused me to believe that the disease was slowly extending down the burical tuber. My sleep was broken: I felt tred all the time: I did not feel retres and as I ought to in the morning. I have treated only a short time with Drs. Mansfield and Destoneo and the change in my condition is remarkable. I am feeling better than I have for several years. All the former annoying symptoms are grifdonly leaving ms. These physicians are doing good work at a small cost, so that all who suffer either rich a poor, need not bestiate to callou them, as I have found Dre, Mrns told and DeMoneo te be both honest and skilltul in their good work."

ISSUED WMDNFSDAYS and SATURDAYS, Contains all the cream of the daily edition and other matter specially edited. TERMS 2300 A YEAR.

STEREOTYPING At the Herald Office.

The AMERICANIZED **ENCYCLOPÆDIA** BRITANNICA

In connection with a Year's Subscription to this Paper, at regular subscription rates, we will furnish this grand work for

\$2.50 A MONTH FOR EIGHT MONTHS.

QUESTIONS.

ANSWERS.

What is this new scheme about which folks are talking—offering to give some standard work or other at an abautily low figure, on onbeerhing to this paper for one year at the regular subscription rates?

It is a very simple matter. We have arranged with the Publishers of the Americanized Encyclopedia Britannics to take a large quantity of this work off their hands, thus securing a remarkably low price as well as singularly easy terms. We propose to give the whole advantage of this transaction to our subscribers, and offer to deliver the entire set of the Americanized Encyclopedia Britannics on payment of \$5.00 and your signing a contract to pay \$2.50 a month for 10 months, \$30 in all. This offer is made only in connection with a year's subscription to this connection with a year's subscription to this paper at regular subscription rates. Just so. But you see, in these days of steam

Why, that is only shout eight ,

and electricity, and labor-saving machinery, a great deal can be done for eight cents a day, expecially when twenty or thirty thousand people club their money and each puts his eight cents into a common stock. Well, that may be so. But see re. What is this Americanized here. What is this Americanized Encyclopacita you propose to offer, anyhow? I never heard of it before. Now if it was the original Encyclopadia Britannica youwere offering I about drive you my subscription in a hurry. There's a follow carrianting the for it new, and he wants start dollars for the sot, three times what you ask for your Encyclopadia. You can be thankful that you didn't accept his offer. If you'd done so and seen the Ameri-canized edition afterward you would have felt

like kicking yourself. I suppose your canvassing friend told you that the Encyclopeedia Britannica was simply the most complete work of its kind ever published? So it is; he was right enough so far. It's a monumental work and cost more than a million dollars to get up. But there are spots on the sun, you know, and there are defects even in the Eucyclopedia Britannica. Did he mention to you that you might look for Ulyasea S. Grans in it and not find a word about him? That's exactly what he said, the very words. He said, the, that it was accepted as the standard words of reference by all English-speaking scholars, and in every English and American library.

Why, no, and I don't believe it's so, either. General Grant was as well known in England as ho was in this country.

Of course he was, or pretty nearly so. But the Encyclopesdia Britannica doesn't mention him for all that. And it doesn't say a word about Sherman either, nor about Sheridan, nor Hancock, nor Blaine, nor Cleveland, nor Harri-son, nor Harriet Beecher Stowe, nor Julia Ward Howe, nor Elizabeth Stuart Phelps, nor Charles Stewart Parnell, nor Bismarck, nor Jeff Davis, Oh, yes indeed. It contains some of the most magnificant biographies that ever were written.

Macaulay's life of Dr. Johnson, for example. —Macaulay's life of Dr. Johnson, for example.
But you see what they called "the plan of
the work" creluded all mention of living
characters. They wanted to see how a man
would farm out first before they made room for

his life in their volumes. So. Well, I certainly don't want an Encyclopædia test will not tell an Encyclopadia that will not tell me anything about the great heat of the world until star they are dead. Why, it's just exactly while they are alter that it want to know about them most. But see here. What you say doesn't hold together. Why isn't there anything saidshout deneral Grant? He was dead long before this last edition of the Encyclopadia Britannica was published. Guess you've traveled off the record just a little hit, my Griend? laughing. I suppose your canvasser told you his Encyclopedia was a brand new book, just issued, ah?

Hold on, hold on! Just tell me in one word if it says anything about anybody?

Only published by HIS publishers he meant.
But if he had spoken the truth about the matter
he would have told you that the first volume of
the latest edition of the Encyclopedia Britannics was issued fifteen years ago, and that the
greater part of it was compiled at that date.
So you see they didn't get General Grant in it
after all. Why, of course he did. He said

Ha! Ha! Ha! Excuse me, but I can't rest

That depends on the kind of book you war Dear me, what a world this is, to be sure. And is there snything else the matter with the book? Let me mak you a question or two. here in the United States, don't you?

I see, I see. We need an Ameri-canized ed!— and by juminy! That's the very thing you are ad-vertising. Am I right?

I see, I see. Why it's a perfectly splendld idea. The only wonder is that nobody thought of it before. And I suppose there as hogeneby of General Grant in your edition?

Yes, I thought so. Now tell me, about which do you want the most detailed information, an American city or an English fown? An American statesman or an English statesman? Just so. But, you see, the Encyclopædia Britannica wann't compiled for the use of men like you. It was put together to be used by Englishmen in England. And, you see, they want the eract opposits of what you do, and the What a question! Why, being an American, I want the most desailed information about matters of American interset, of course. All I am ever likely to want to know about an English town or county is its location, population, manufactures or other products and a law generalities of int kind. Encyclopedia Britannica, very properly, gives it to them. It fills pages with the account of some insignificant highlish berough or county that you may never want to know anything about whatever, and gives a bulf dozen lines to

> particulars of, but about which an Englishman oarea just nothing at all. Right as a trivet, whatever that may be—I never saw one that I know of. Sut you're just exactly right, all the same. It's the AMERICANIZED Encyclopedia Britannica that we propose to put in every home in the West. The long-winded articles on petry British subjects have been cut down to the same length that would have been given them had they been French or floruna subjects, and the articles on matters of American interest have been all rewritten and treated just as exhaustively as they would have been in the original work had they would have been in the original work had they

some State or city here that you want the fullest

would have been in the original work had they been specially interesting to Englishmen. Well, rather. One of the best and most com-plete ever written. And there are four thou-sand new biographics besides. In fact, the work contains the life of every distinguished man or woman, American or foreign, now living, or who has died since the Encyclopædia Bri-

Oh, yes, a few. The entire work has been revised down to the present year for one thing. Then an entirely new set of maps has been added, including a separate map for each State in the University. Any other improvements? This is getting interesting. Upon my word, I'm glad I told nat canvasser to call again. If I adn't met you I should have been nely stonk. Oh, by the way, how mys a work is this of yours? Ten good sized volumes, excellently bound.
About 7,000 pages altegether, or 14,000 wide columns, equal to about 110 ordinary 12mo books.

tannics was compiled.

And that is?

Hal Hal Ha! It seems as though we were ready for you at every turn. Why, of course, you can get them sconer. And you needn't pay any quicker on that a scount, either. My dear sir, you can get the books at once by paying a first installment of 25.00 the complete set will be delivered to you then and there. If you hear of anybody clas who would like some information about this really extraordinary offer just tell him to send a postal with se on it to us, and kis case will be

That settles it. Here's my first installment. I'm a subscriber to the Encyclopadia from this mo-

That's reasonable, good day.

We cannot do that asoursole object in handling these books is to increase our circulation; the only profit we get out of it, as can be readily seen, is the increased circulation of the paper; besides, the books cannot be obtained at any price except in connection with the paper. Good day.

Our Proposition.

attended to promptly.

We will deliver at your address a complete set of the Americanized Encycle peedla Britaunica on payment of \$5.00, and your signing a contract in which you agree to pay us \$2.00 a month for ten months, in all \$30.00.

years' subscription to this paper at the regular aunscription rates. The Encyclopædia cannot be obtained in any other manner at any price.
